A publishing pioneer celebrating 65 years in the industry, Springer Publishing Company is known as an innovative nursing, behavioral and health sciences, and medical publisher. Our books have won numerous awards and we offer over one hundred top quality titles annually, in addition to more than twenty journals. In all of our publishing areas, we are passionate about providing the best textbooks, professional reference and clinical books, apps, and digital products to students, instructors, and professionals.

FORTHCOMING

Elder Abuse and the Public’s Health
Pamela B. Teaster, PhD
Jeffrey E. Hall, PhD

Presents an insightful, interdisciplinary approach for preventing elder mistreatment. Encompassing the contributions of leading scholars in public health and gerontology, this is a rich repository of key ideas, concepts and issues regarding elder mistreatment and the role of public health initiatives in its prevention. The text frames elder mistreatment as a public health problem, stressing that efforts toward prevention is well within the scope of work performed by public health professionals.

Homeless Older Populations
A Practical Guide for the Interdisciplinary Care Team
Diane Chau, MD
Arnold P. Gass, MD, FACP

Offers proven strategies for advancing the care of the homeless elderly. Filled with key insights and field-tested knowledge, this is a concise, hands-on guide to how interdisciplinary team strategies can advance the care of older homeless adults. The book encompasses research evidence, education-based initiatives, and systems thinking, and describes how to implement promising health care outlooks for diverse elderly populations in a variety of localities.

Psychology of Aging
A Biopsychosocial Perspective
Brian Yochim, PhD, ABPP
Erin Woodhead, PhD

The only graduate text to encompass the full range of issues regarding the psychology of aging. This is the first graduate-level text that offers a comprehensive, in-depth chronicle of issues surrounding the psychology of aging emphasizing psychology, with a foundation in the biology, and an expansion into the sociological aspects of aging. The text is divided into three sections: biological underpinnings of aging, psychological components of aging, and social aspects of aging.

Environments in an Aging Society: Autobiographical Perspectives in Environmental Gerontology
Habib Chaudhury, PhD
Frank Oswald, PhD

Through the autobiographical perspectives of 16 preeminent researchers and scholars of Environmental Gerontology, this state-of-the-art Annual Review critically examines the broad range of topics that comprise this interdisciplinary field. The writings of these individuals, who have contributed to and shaped the growth of the field over the past three-plus decades, trace the growth and evolution of Environmental Gerontology and provide understanding of, and insights on, the role of environments for older adults and an aging society at multiple levels.

Health, Illness, and Optimal Aging, Third Edition
Biological and Psychosocial Perspectives
Carolyn M. Aldwin, PhD
Heidi Igarashi, PhD
Diane Fox Gilmer, PhD
Michael R. Levenson, PhD
Uniquely bridging a gap in the gerontology literature between the biological and psychosocial aspects of aging, this interdisciplinary text provides key updates on an abundance of cutting-edge research; expands information on diversity issues in aging; and examines in great depth the physiology of aging, theories of biological aging, and methodological issues. Instructors will also welcome the availability of an Instructor’s Manual and PowerPoint slides.

A Hands-on Approach to Teaching About Aging
32 Activities for the Classroom and Beyond
Hallie Baker, PhD
Tina M. Kruger, PhD
Rona J. Karasik, PhD
Harnessing the proven benefits of active learning strategies, this is the first activity book created for a broad spectrum of courses in aging-related higher education. It features 32 classroom and community-based educational activities for instructors seeking to introduce or enhance aging content in their courses. Underscoring the interdisciplinary nature of aging studies, the book encompasses teaching strategies for instructors in such disciplines as counseling, family studies, gerontology, geriatrics, medicine, psychology, public administration, public health, nursing, social work, sociology, speech pathology, and others.
